WORD OF LIFE KENYA | Reaching the youth with the gospel of Jesus - Harrison, Flo, Tim and Ben Airo

APRIL 2024

Dear Friends,

Greetings from word of life Diani where we have 26 students on our discipleship training program. I have had a good time teaching this young people how to play the guitar hopefully some will become worship leaders in their fellowships or wherever the Lord leads them.

Many years ago a missionary took time to teach me how to play the guitar which got me to play into local gospel music groups and leading worship in my church. It is a great joy to pass on to others.

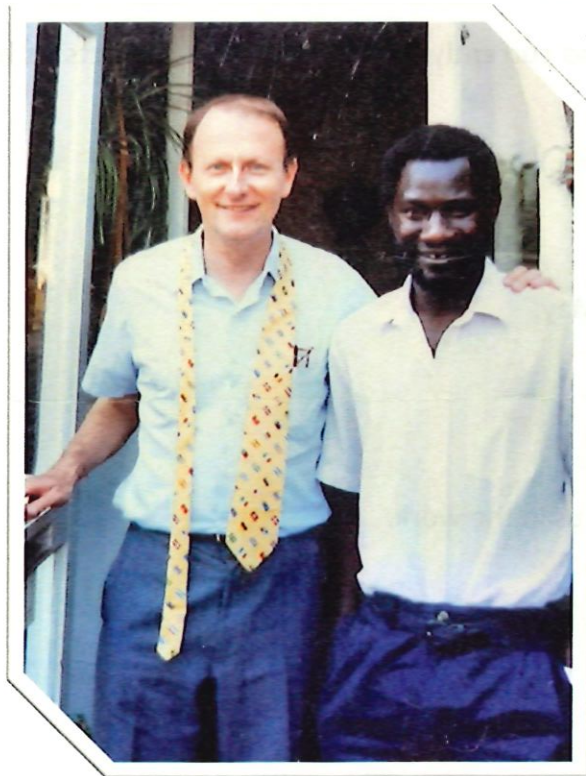

Bible Distribution

As a young man out of bible school many years ago, I had the opportunity to serve as a short time missionary with operation mobilization (OM) learning and exposure before returning to my home country.

It was here I met George Verwer who is with the Lord today.

I had the privilege to be his assistant, driving him to different places where he would speak and I would stay in the back of the church with a book table.

He always encouraged people to come to the book table get books and read. I look at the bible distribution in our ministry and thank God for George who inspired and encouraged me.

Camps

Camps have picked well. We had a good attendance and very thankful for the opportunity to have some camps away from our property.

We were able to sponsor some young people from the slums and pray that the Lord works on their lives.

We had a good staff conference at the beginning of the year and reminding ourselves what the Lord has called us to do.

Bible clubs have gone on so well. We are thankful for all the open doors in schools and churches.

Florence is doing well and has been very active with others who are interceding for our country which has many challenges.

Ben was not successful in joining the University and currently working on some subjects to help him join university.

We ask for prayers:-

For upcoming April camps.

We have a discipleship training program lined for May.

Continued funding for the Bible distribution

We can never thank you enough for standing with us in the work.

In his service

Harrison Airo
