

September 2025

Dear praying friends,

Kenya is known to be a peaceful country relatively.

The demonstrations and violence that rocked the country a short while ago reminded us that we have been having peace.

They say you know how good something is until when it is taken away from you. We are so thankful for the peace that we now have.

Food and shoes distribution

We have been on the road the last three months which has been fruitful and encouraging.

We spent some time in the North of Kenya (Marsabit) which is a needy area, has harsh weather, insecurity and other difficulties.

We were able to run a camp with 130 youth in a dry place called Segel.

We also had a training program for the pastors with no formal training.

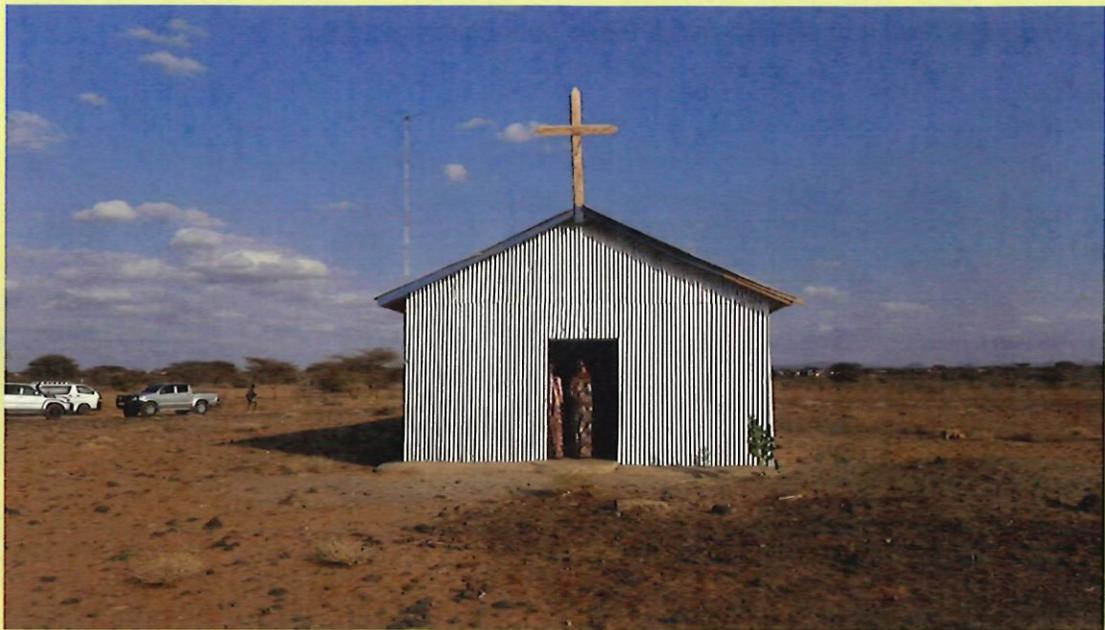

The program was sponsored by a church in Vermont (U.S.A) which sent a team to participate.

Together we taught, gave out many shoes, clothes and bibles in their language.

We praise the Lord for the impact with 17 youth coming to Christ.

Games time

We did extend the training to pastors in (Mundeku) Western Kenya.

They all had good teaching, they all received a Ryrie study bible and Ryrie book on basic theology.

We thank God that we can make these connections to help.

Pastors training

We were privileged to run a camp by Lake Naivasha and a hike on the Longonot Mountain.

This was in a way of follow up and discipleship.

We hope and pray that the teaching during the excursion encouraged further growth in Christ.

Back to our properties, we had a good turnout for the August camping season.

We look forward to a long camping season mid-October to January.

Bible clubs in schools are going well.

Our three months' discipleship program in Kabete with 12 students end in a few days.

We pray for their future.

As a family, we are grateful to all of you praying and giving to make this happen.

With Love and appreciation,

Harrison, Flo and Ben
